

PUBLIC MEETING ANNOUNCEMENT

The City and consultants have reviewed policies in the General Plan for consistency with the community vision, supporting principles, recent legislative updates, and current community conditions. The results of this review along with an overview of new legislative requirements will be presented. The public will have an opportunity to provide comments for consideration.

MEETING TOPICS

The information presented will set the stage for how the General Plan is revised during this update process. At the end of the meeting is an opportunity to get an update on issues to be addressed during the General Plan update process and provide your input. Topics will include recent legislative updates on environmental justice and climate adaptation. The results of a recent policy audit of the current General Plan will also be shared.
